Where God prepares people for service...

Studying in TTC was significant in many ways beyond the impartation of a theological framework by a group of lecturers that are competent, caring and pastoral. Through them I have come to appreciate and have a passion for the Word and the God who inspired the Word.

- Rev Chua Siang Guan (MDiv 2008)
is Vicar of St James Church

Theological studies have begun to mould in me a pastoral heart, preparing me for a shepherding ministry both in my profession as well as in church ministry. It has helped me find myself in God's big plan.

- Tan Chooi Chooi (MDiv 3rd Year)
is a medical doctor

The spiritual formation experience I had was memorable. The library was first class. I had access to whatever materials I needed and was able to complete my vernacular translation of the New Testament: the Luqa New Testament was sent off to the printer when I was at TTC. 14 years after I graduated, I still treasure my time and educational experience at TTC.

- Dr Alpheaus Graham Zobule (MTh 2003)
is Translation Consultant and Founder of Islands Bible Ministries and Islands Christian College, and Language Institute, Solomon Islands

The MTS helps develop a deeper understanding of the Faith. I have learned much more than anticipated and the course has also ignited the journey of my spiritual awakening. I strongly recommend the MTS for those who teach and share Bible knowledge in church.

- Sherrin Chua (MTS 2nd Year)
is a civil servant

I am very grateful for the opportunity to pursue my doctoral degree at TTC. It has great lecturers and a great library with many good books and journals which is a good place to do research for doctoral study. Thank you TTC!

- Pdt. Kornelius A. Setiawan (DTh 2003)
previously Rektor of STT Aletheia Lawang
and presently Ketua Sinode Gereja Kristus Tuhan
Indonesia

It has been a wholesome experience...the research skills developed, working on papers... have become effective tools in my ministry journey. One of the greatest benefits of studying at TTC is that you get to interact with colleagues from different denominations and churches, which allows you to develop a broader perspective of the Christian faith and practices.

- Bobby Chaw (MDiv 2011)
is Pastor of City Harvest Church

Ever wondered...

how you might deepen your understanding of the Christian tradition and develop a spiritually mature and vibrant faith?

Ever wished...

you could receive a theological education that is grounded in sound and solid Christian scholarship?

Ever contemplated...

God's call upon your life and how you may be equipped to serve God in church and society?

Consider Trinity Theological College...

where you will find study and formational programmes that sharpen the mind, shape the heart, and strengthen the hands to serve God in church and world. Together with other members of the TTC community, you will be inspired and encouraged to grow in faith and discern God's voice and will for your life.
